

# IETF Hackathon

IETF 106  
Nov. 16-17, 2019  
Singapore

# Hackathon Plan

- TAPS - Replace Sockets
  - draft-ietf-taps-impl
  - draft-ietf-taps-interface
- AMBI - Authenticate multicast packets
  - draft-jholland-mboned-ambi

# What got done

- TAPS
  - Remote endpoint racing implemented
  - Lots of fixes
  - New issues for framers discovered (bringing this to WG)
- AMBI
  - First draft implementation
  - First project built on PyTAPS

# Wrap Up

Team members:

- Jake Holland  
([jholland@akamai.com](mailto:jholland@akamai.com))
- Theresa Enhardt  
([theresa@inet.tu-berlin.de](mailto:theresa@inet.tu-berlin.de))
- Max Franke  
([mfranke@inet.tu-berlin.de](mailto:mfranke@inet.tu-berlin.de))
